

Game Center Survey

Hello everyone. My name is Shawn Clark. I'm conducting this survey as a part of my Senior Capstone Project at CSUMB. For my capstone, I am comparing student opinions and experiences of game centers (arcade centers) in Japan and the US. This survey consists of 26 questions, and should take about 5-10 minutes to complete. All answers will be kept confidential. Thank you for your participation!

Capstone Title: A Comparative Study of Game Centers in the US and Japan.

Research Questions:

- 1) Why are game centers (arcades) so prevalent in Japan while they are on the decline in the US?
 - a) What is the appeal of playing at a game center instead of on a console at home?
- 2) What are the most popular games in each culture's arcade and why?

* Required

Survey Guidelines

For this survey, I am using the following definitions:

Game Center/Arcade: A business or building containing multiple arcade machines. In the US, this may include Dave & Busters, Chuck E. Cheese, and other venues containing an arcade room.

Game console/ Console: A handheld device such as a Nintendo Gameboy, DS, or other product OR a device that connects to a TV such as a Playstation, Xbox, Wii, etc.
